

GREENWAVE ORGANIC COMPOST

Multi-Purpose Compost | Peat Free

For fruits, vegetables and flowers

Greenwave Organic Compost is an eco-friendly, peat-free compost made with a unique blend of nutrient-rich organic matter and seaweed. Designed to improve soil health and fertility, it supports better growing conditions for fruits, vegetables and flowers.

Key Benefits

Improves Soil Health

Helps enrich the soil with organic matter to support healthier plant growth.

Supports Soil Fertility

Provides a nutrient-rich base to improve growing conditions.

Multi-Purpose Use

Suitable for fruits, vegetables, flowers and general garden use.

Peat-Free Formula

A more responsible compost option for sustainable gardening and agriculture.

Made from Organic Materials

Made with 100% organic materials and natural ingredients.

Product Composition

Ingredients:

Leaves, wood chips, seaweed, manure and egg shells.

Product Analysis

Analysis may slightly differ from batch to batch.

Component	Value
pH	7.09
Organic Matter	47.5%
Total Nitrogen	0.88%

Suitable For

Greenwave Organic Compost can be used for:

- Fruits
- Vegetables
- Flowers
- Home gardens
- Soil improvement
- Conventional agriculture
- Sustainable agriculture

How to Use

1. Remove weeds, stones and debris from the planting area.
2. Open the bag carefully with scissors.
3. Spread an even layer of compost approximately 3–8 cm thick.
4. Mix the compost into the top 15–20 cm of soil using a garden fork, then rake the area gently.
5. Water adequately to maintain moisture. The area is now ready for planting.

Storage Conditions

Keep in a cool, dry place, away from direct sunlight.

Warnings & Precautions

Keep out of reach of children and pets. Avoid contact with eyes and prolonged skin exposure. If contact occurs, rinse thoroughly with water. Do not ingest. If swallowed, seek medical advice.

Use in accordance with local agricultural guidelines and best practices.

Regulatory & Compliance Notes

This product does not contain synthetic additives or preservatives. It is not certified organic, but is suitable for use in conventional and sustainable agriculture. No hazardous components are expected under normal use conditions.

Packaging

Net volume: 10L

Packaging: 100% recyclable packaging

Please dispose of empty packaging responsibly.
